

Environmental Engineer-in-Training

Job Location – Visalia, CA

Responsibilities

4Creeks is seeking an Engineer-in-Training to work under the direction of a Project Engineer or Manager on our Environmental Team. Responsibilities for this position would include preparing environmental documents including Storm Water Pollution Prevention Plans (SWPPP) and Spill Prevention, Control and Countermeasures (SPCC) Plans assist with preparing technical reports and technical exhibits. Other responsibilities include assisting with preparing technical reports and exhibits, spreadsheet calculations, project tracking, site visits and documentation of site conditions. This position will primarily entail office work.

Minimum Qualifications

1. The position requires a B.S. in Civil Engineering, Environmental Engineering, or related field.
2. Minimum of 0-1 years of experience.
3. The ideal candidate will have working knowledge in preparation of Storm Water Pollution Prevention Plans, Spill Prevention, an Engineer-In-Training Certificate and exceptional written and oral communication skills.
4. Experience using AutoCAD (version 2009 or higher, Civil 3D preferred) is preferred.
5. Experience with Microsoft Office, including Word and Excel is required.

Compensation

Salary will be determined by candidate's skill and experience level and highly competitive with industry standards. Benefits package includes full employee health coverage (50% coverage for dependents), company 401(k) contribution, and performance bonuses.

About 4Creeks

We are a small band of visionaries, mentors, and citizens, driven by a deeply instilled belief that together we can help solve some of the challenges we face. We're determined to play our part in inspiring a new future and rebuilding what's broken, from Bakersfield to Sacramento. We call Central California home and we're committed to using all the tools and resources at our disposal to make this region known for greatness.

You'll quickly find out that 4Creeks is built on a fun, challenging and collaborative work-environment. A team-based approach is the standard we uphold, and we believe that no one person is more valuable than the other. We enjoy working together and pooling our resources to provide the best solution we can create together.

How to Apply
